minutes

TO CREATE:

- 1 Cut a 30x15cm pink card rectangle and score-fold in half.
- 2 Punch out a square in the parchment, place over the black & white photo and adjust, so that the focal part of the image is within the square. Keeping the square in position, trim the parchment to the same size as the photo.
- 3 Place both on the cutting mat, and in the top-left pierce through both layers with the bradawl and secure with a small star brad. Repeat as shown.
- 4 Glue a small bow in place. To secure the parchment, put a little glue on the underside so that it is hidden by the bow.
- 5 Use the cassette punch to punch out the required letters and several hearts from the white card.
- 6 Arrange the photo, letters and hearts on the pink card, then glue into place.
